Standard Industrial Classification (SIC) Codes—2000 thru 3999

This SIC Code list is for "manufacturer" firms only. <u>Do not use this list if your firm is a service, non-manufacturer, or construction firm.</u>

To be certified as a "manufacturer," your firm must meet BOTH of the following:

- (1) Be primarily engaged in the chemical or mechanical transformation of raw materials or processed substances into new products.
- (2) Be classified between codes 2000 to 3999, inclusive, of the Standard Industrial Classification (SIC) Manual published by the U.S. Office of Management and Budget, 1987 edition.

Instructions: Use the full 4-digit SIC code when classifying your "manufacturer" small business or disabled veteran business enterprise (DVBE).
